LOGO GUIDELINES

Last Update: January 2021

Logo Versions

We have three logo variations, you can use the one that fits your layout best.

Variations

Logo clear space and minimum sizes

When you're using the logo with other graphic elements, make sure you give it some room to breath. The empty space around the logo should be at least the height of the 50's block.

To ensure the logo is legible, do not go any smaller than 95 pixels in width — or 130 pixels in width with the wide version.
