

**OUR GENDER DIVERSITY INDEX REVEALS THE PERCENTAGE OF WOMEN APPOINTED TO PUBLIC COMPANY BOARDS IN 2022 SLOWED SIGNIFICANTLY.**

Using data provided by our partner Equilar, as of Q4 2022 the national percentage of women on Russell 3000 corporate boards remained at 28%. The percentage of women directors joining public boards continued on a downward trend, slipping to 36% in Q4 2022. Overall in 2022, the percentage of women joining boards was 39% lower than in 2019 and 2021, which were over 40%. To reach gender parity by 2028, the percentage of women joining boards on an annual basis must surpass 50%. Given the slow progress, 50/50 Women on Boards will ask the 57 Russell 3000 companies with no women on their board, and the 406 companies with only one woman on their board, to #makethepledge to appoint at least one female board director by the end of 2023.
