PROFESSIONAL EXPERIENCE

Baxter International, Deerfield Illinois

Chief Information Security Officer. April 2023- Current.

Global Chief Information Security Officer for 12B multi-national, Medical Device manufacturing company, responsible for driving the strategies to protect Baxter's business, manufacturing network, medical devices, and information assets against cyber threats. Work across corporate functions and business divisions to support company goals by building cyber resiliency in daily operations and into Baxter's products. Mobilized secure adoption of innovative technologies like AI& Generative AI. Establish governance and disclosure framework. Report the cyber-risk posture and investments to a bi-monthly executive oversight committee chaired by CEO; on a quarterly basis to the Audit Committee; and twice a year to the Board of Directors.

Abbott Lifesciences, Lake County, Illinois

Global Information Security Office, September 2022-April 2023.

Global Cyber Risk Officer, September 2019- September 2022.

Led Enterprise Information Security Office for 43B, fortune 86, Global Life Sciences company. Created programs to manage cyber risk to Abbott's Enterprise including manufacturing and information assets. Received president award recognizing support of Abbott's sustainability commitments, through the Data Loss Prevention program, that secured Abbott's intellectual property. Implemented highly impactful Manufacturing Cybersecurity, and Malware mitigation programs. Member of elite task group to drive adoption of Manufacturing 4.0 and digitally enabled manufacturing. Sponsored Women in Cyber platform committed to mentoring and progressing a diverse cybersecurity workforce.

Amita Health, Chicago

Chief Information Security Officer, January 2017- September 2019.

Cyber Chief of a complex network of 19 primary care, 27 hospice care and (~) 400 affiliated physician practices. Designed strategies for protection of AMITA Health Systems and patient data, including a clinical device security program to manage and lifecycle unsupported, unsecured medical devices. Improved regulatory compliance. Advised hospital administration executives on prioritizing investments towards procurement and maintenance of information systems, to mitigate risks to the health system as well as its patients. Additionally, led health system through two acquisitions. Stabilized an at-risk cyber-organization experiencing high turnover.

Stericycle, Chicago

Information Systems Security Officer & Director IT Infrastructure, September 2015- January 2017.

Information Security Officer of a Fortune 500, Global health care company of (~) 25000 employees across 22 countries. Guided IT and risk management Strategy over Stericycle's Intellectual Property. Oversaw the organizational redesign to centralize and standardize technology and cybersecurity services resulting in significant cost and risk reduction from reduced duplicate and shadow -IT. Management of (over) \$30m budget across Security and Infrastructure. Created a 3-year strategy to consolidate data center footprint to achieve a reduction of 32 data centers down to 4. Developed a Cybersecurity Playbook for M&A and led efforts to integrate Shred-It company acquisition.
