

JULIE JOHNSON
SENIOR VICE PRESIDENT / GENERAL MANAGER – ENTERPRISE MOBILE
COMPUTING
ZEBRA TECHNOLOGIES
LINCOLNSHIRE, IL

As Senior Vice President / General Manager of Zebra Technologies' \$2B Enterprise Mobile Computing businesses, Julie creates and delivers Android and Windows hardware (handhelds, tablets, and wearables), software, and cloud-based SaaS solutions to retail, transportation & logistics, manufacturing, healthcare, and government verticals globally, providing visibility and intelligent collaboration across enterprise employees. Her team specializes in data capture and connectivity solutions that enable enterprises to better connect their employees and create visibility at the edge, taking advantage of AI, ML, and Gen AI technologies to automate workflows and create efficiencies..

Julie has a successful track record of creating innovative product solutions that meet customer needs, prevailing over tough competitors. As Senior Vice President of Product Management at Verifone, she led the introduction of Android into payment, creating hardware, embedded software, and cloud-based services for Tier 1, Tier 2, SMB, and acquirers. As Corporate Vice President of Product Management at Lenovo, Julie owned a global P&L of up to \$5B, surpassing Samsung's market share in South America, launching a new line of devices to meet market needs and launching the first device with an unbreakable display, winning top smartphone in Consumer's Report. As Corporate Vice President of Product Management at Google, she led the Droid Android mobile phone product line, winning exclusive, volume-based contracts with Verizon Wireless to provide their entire Droid product line, competing against leading Asian competitors. Julie also spent time at Motorola in manufacturing operations, running factories in a fast-growth, rapidly changing technology environment, understanding the need to vastly lower operating costs while maintaining flexibility and investing for future enablers.

Julie currently serves as the Nom/Gov chair on the Board of Directors of Lumentum (NASDAQ: LITE), a global leader in optical communications and 3D sensing for facial recognition.

Julie earned a Master's of Science in Business Administration degree from the Massachusetts Institute of Technology and a Master's of Science Degree in Materials Science & Engineering from the Massachusetts Institute of Technology. She earned a Bachelor's degree in Math and Physics from Albion College.
